## Editorial...

Nice assortment of articles again this month. A first contribution from Mick Clark shows the other side of Rovering; a real working vehicle out of the public gaze - working while the rest of us sleep. Tracey Doherty describes a green lane trip and we have an assortment of invites to events at home and abroad.

Quick comment on ARC rules again. As the new ARC yearbook has been delayed, I have produced some booklets to fill the gap. There is an assortment of colours around, all with basically the same contents. 1992 is looming and there are some rule changes that come into force on January 1st. I will be producing a 1992 version for issue from that date. This one will look a little less like Pants & Barks! The awful colour of the purple ones issued was to differentiate between the Rule Book and Pants & Barks which looked similar due to similar cover layout.

If the results of the survey I announced last month are anything to go by, no-one in the club owns a vehicle!! "What survey was that then, Steve?" I hear you ask. Here is a nearly verbatim repeat from last month's ARC meeting report.....

Dave Barker, Press & Publicity Officer commented on the fact that Land Rover Parts have withdrawn their sponsorship of the ARC. So we will have to find £5000 a year to pay for it all ourselves. Shall we look for alternative sponsors? In order to target the sponsors accurately, it would help if we could find out exactly how many vehicles of what type and age there are in the ARC. So please write to me and let me know what you own (model/series etc) and how old it is (or just quote the year). This survey will be very useful to the HBRO as well as being vital to the future of the ARC.

So either reply to me or send the information to Nick if you are renewing your membership in the near future. (Save you the price of an extra stamp)

---

Keep the articles and letters coming in, folks. If you're typing or printing them yourself, please make the block of text match the rest of the newsletter. For those of you with access to IBM PC or compatible computers, I can accept articles on 3½" and 5¼" discs. Better still, send document files from "XywriteIII", "DCA-RFT", "RTF", "PC-Write", "Tasword", "WordPerfect", "Wordstar", "Windows Write" and "Word for Windows" word-processors on either size of disc. If you don't have a choice, send it in anyway and I'll see if I can load it. Unless otherwise requested, I'll return the disc, and any photos sent, with your newsletter if possible. Please let me have your articles by the 10th of the month please.

---

## ARC Vehicle Regs

From time to time I mention the ARC Vehicle Regulations. The ones in the yearbooks you all have are now out of date so I have produced a P&B style booklet containing the new set. Members of the committee will endeavour to hand these out to regular competitors at events or club evenings. Please write to me or phone if you want me to send you one.

## Hi There!

I know I've written this bit before, and the old hands will be getting fed up with it, but we are still gaining members week by week....

Are you a new member attending the pub meet? Please don't just "Hover" in the background! There are about 190 members in all and the regular members of the club don't know everyone by sight and so won't know whether you are new or not. We aren't ignoring you, promise! Come and say Hello.

## Come and Play

We have mentioned several times before that setting out a trial can be great fun. You get a whole day driving round the site for free! Try it; and take the load off some of the others who seem to do it all the time. We have the use of military sites on several occasions in 1991. It's worth giving up the chance to compete in exchange for a whole day driving around at Broxhead or Weaver's while setting out!

Steve Kirby.

---

Have you got an advert in P&B? If so, is it still valid? Please do let me know when your sales and wants are finished. Sometimes I get a comment from a buyer who says he phoned someone up only to find the items sold 6 months ago! Apart from the inconvenience, the mag is getting cluttered with old adverts. Are they yours?

## Broxhead Common Trial Results

Despite the apparent limitations of Broxhead Common, Dave Ridden, Allan Tew and others managed to organise another fine trial there on October 27th. The event was open to members of the Southern ROC. Paul Barton from that club showed us all how to do it; in a standard 88" Land Rover too!

The CCVT vehicles were all put together in one class. It has to be said that Gary Langton did remarkably well in a Range Rover pickup against several much smaller vehicles - and on road tyres too!

The Long wheelbase class was a small but close fought group. Allan and Chris double driving the same Range Rover against Steve in his. All were on XCLs. Interesting.

## Snow Go!

I have been a member for the last three years now and every now and again, other members turn to me and say "Why don't you trial your vehicle?" or "Why don't you green lane in it?" only to be met by the information that "The out-laws forked out for the loan" or "Well, if I bend it I don't go to work" The reason for this is that between the months of October to March, my vehicle and myself are on 24hour standby for frost and snow. My job is to salt and plough the motorways M3 and M25 and the A3 if the county council 'lose it'. The M25 proved hard work last year, snow-ploughing and formation ploughing with four Foden six-leggers. We managed to fill up a Suzuki 410 as the occupant was climbing out of it at the time. Sorry jap chap (*I think it says chap, Ed.*). In between shifts, rather than go home, my Rover doubles up as a camper. We work any hours. The snow was deep in places with 4x2 cars usually BMWs hanging on the crash barriers. There were times when me and "UKV" were heading for work in the small hours when everyone else was tucked up in their nest with their wives (or someone else's?!). It was cold, wet with driving snow. UKV never missed a beat. This year's snows? Well we'll have to wait and see.

So next time on a cold snow-bound countryside morning when you're heading for your warm office or driving down the motorways in your vehicle, spare a thought for the guy with the green 110SW refusing to trial his Rover or making excuses not to trial. I hope this might show that I do work my Rover, which is better than making it filthy on some mud-bound army range and making excuses to 'er indoors for the repairs to panels and running gear, brakes, etc. It's good fun by the look of it but there's a price to be paid for trialling if you wanted to be honest about it. I know I'm blowing my own trumpet (or air horns in my case) but I'm using UKV for what she was intended - "getting people out of trouble."

Mick Clark

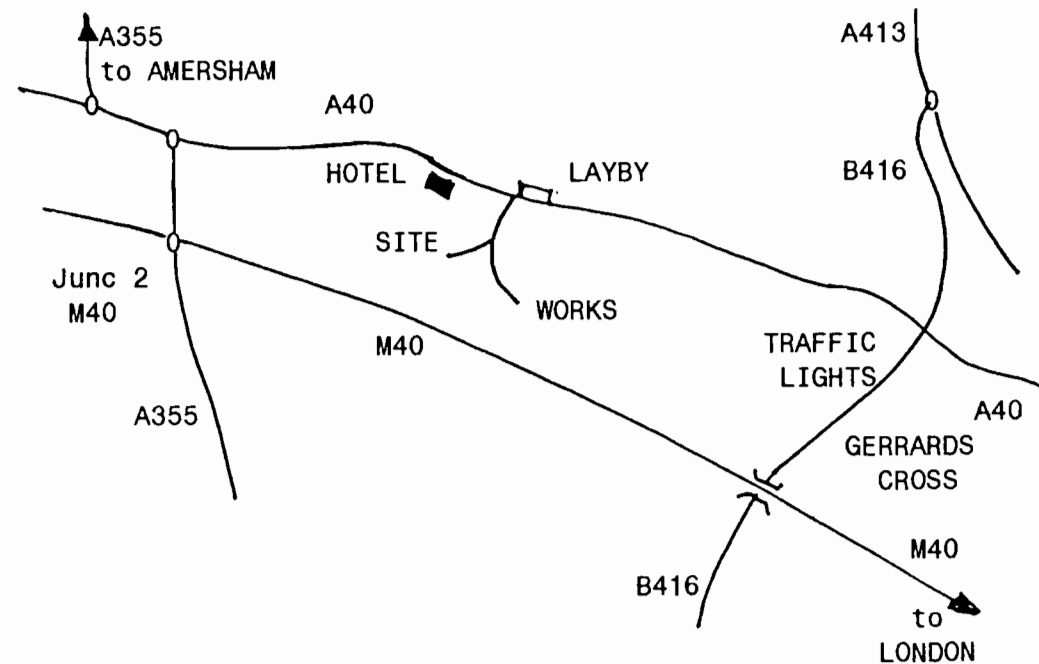

## RTV & CCV Trial, Wapsey's Wood, Dec 1st Invite from Anglian Rover Owner's Club.

We have been invited by Anglian Rover Owner's Club to an RTV and CCV trial at Wapsey's Wood, near Gerrards Cross, just to the NW of Heathrow Airport, on the 1st December. The event is open to all fully paid-up members of HBRO. Entries can be on an HBRO entry form. The fee is £9 in advance or £11 on the day. Payment to:-

Robin Warrington, 226 Telscombe Way, Stopsley, Luton, Beds LU2 8QR  
tel: 0582-415183

Scrutineering will be at 9:00.a.m. and the competition will start at 10:00.a.m. prompt, so please be on time. Classes and rules are generally similar to ARC rules. Viking FWD, Southern ROC and Bucks 4x4 will also be present. Should be a big event. Try it.

## Hants & Berks Rovertune Challenge

We are holding a Rovertune sponsored CCV & RTV trial at Weaver's Down, near Bordon, halfway between Petersfield and Farnham, HANTS, on the 8th of December. The event will be open to all fully paid-up members of HBRO, Southern ROC and Anglian ROC. Entries should be on an official entry form if possible. The fee is £10 in advance or £12 on the day. Payment to Pennie Hodgson. (Address inside front cover.)

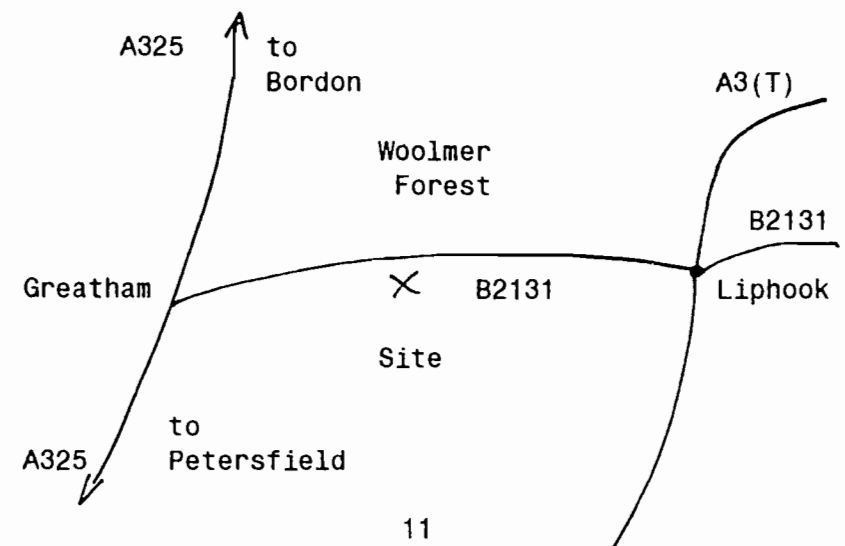

Due to the short daylight this time of year, we are going for an early start. Scrutineering will be at 07:45 - 9:15.a.m. and the competition will start at 09:30.a.m. prompt, so please be on time. Classes will be as per ARC rules but experience has shown that amalgamations are probable. Most regular competitors will have their HBRO-issued ARC Rulebooks by now. Note that vehicles built to comply with the old 1989 ARC Yearbook may not be illegal until after Jan 1st 92. Don't forget your MOT certificates (where relevant) and driving licences!

RTV will be a qualifying round for the HBRO "Red Leader Shield" and the "Pilot Trophy". There will also be a team "Nomination" event for all the clubs, run concurrently.

Please come along on Saturday to help set out the sections, it's always the same few who get lumbered with this. On the Sunday, please enrol as a marshal: we'll show you how to score if you've not done it before! Please bring a CB radio if you have one (in-car or hand-held).

## In at the deep End.

On a damp foggy morning, twelve of Land Rover's finest turned out at Warnborough station. Three 88s, a 109, two 90s both diesel, one Range Rover, four 110s and a nice shiny black Discovery. One of the 110s was only a week old I believe. Well done Jim, I'm glad you're using it off-road.

When I enquired as to who was running the show I was told we were. Some what taken aback I had to have a cup of tea. Anyone who knows me will know this is my usual response which is now made easier thanks to our 12 pint flask.

We decided to split into two groups, Adrian Bolge taking one.

Our merry band consisted of Mike and Sue crewed by Donna and Warren in the Discovery, Terry and half a football team in his 88"; two colonials (1 Aussie and 1 American) Martin and Dan in a 110; last but not least Paul, Portia and Colin ably assisted my Mitzi.

It was fairly sticky underfoot. On the first lane, the Discovery's tyres decided they didn't want to play in the mud so our 90 gave it a tow which we did quite regularly during the day. It just goes to show that tyres make all the difference; the Discoveries at Land Rover's school have XCLs.

We then had the misfortune to meet 3 horses who were very polite which is more than can be said of their owners, one of whom had a chronic case of verbal diarrhoea. We stopped to let them pass. They said they couldn't get by - we'd have to move on. One of the horses wasn't impressed which resulted in more verbals.

We moved on to the next lane, where again the Discovery didn't want to know. All of the other vehicles decide to go on strike as well. I'm glad my 90 isn't in the union. We were behind a playing field and some bods were watching a football match when we arrived. they decided we were much more interesting; they never said a word - just kept peering as though we came from outer space! The second half of the lane was very tight, We came through unscathed and then we stopped for lunch. Sue took over the driving of the now muddy Discovery and very ably she drove too, I may say.

Three more lanes one of which we had to move a fallen branch, another where the 90 slid into a hole after wiggling round a tree.

We then headed for home via Long Valley to catch the end of an AWDC Comp Safari.

I'm sorry for the uncertainty of the day; next time if we have some advanced warning we could organise a better day.

Tracey Doherty.

PS: If anyone wants to green-lane on different weekends with Mick and I, have a word with us and we'll see what we can organise. Sorry we don't have a phone but give us yours and we can contact you.
